

## CON. VIRGINIA INSTALLS HOIST

Mining operations at the north end of the Constock are moving forward with good progress at all properties operating in that section, with activities centering at the Consolidated Virginia mine, where conditions continue favorable at all points, says the Virginia Chronicle. The new horsepower electric hoist arrived early last week, and is being moved into the cement foundation, being hoisted back of the steam hoist. In use at the mine for many years past, it is expected that the new hoist will be ready for operation in about a week. It is of modern and up-to-date design, and will add greatly to the efficiency and economy of work at the shaft.

In the Consolidated Virginia mine, where conditions remaining about the same as outlined in the weekly reports and with an excellent supply of ore being mined. The mine in the ore shoot below the 200-foot level is in fine grade ore, but sinking has been discontinued temporarily, while a north drift is run to the 30-foot point in the mine. This drift is preliminary to sinking, and is to the south will follow later on the conditions at other locations in the mine continue most favorable. In the Ophir mine, the gages and chutes have been filled with the pending starting of the new mine of the Consolidated Virginia. Reports are being made at the Ophir shaft.

Installation of new agitators continues at the Mexican mill and it is expected to resume ore treatment of the plant as soon as loading arrangements are changed over at the C. & V. shaft from the steam to the electric hoist.

## SCORPION MINE TO RESUME WORK

It is announced that the Scorpion Mining company is planning an extensive campaign of development the coming year on the property at the north end, adjoining the Sierra Nevada and Union Consolidated mines, says the Virginia Chronicle. The Scorpion is one of the largest claims in the Constock lode, and although one of the oldest locations on the lode is still in the prospective stage of development. The fact that the prospect has been decided to actively develop this property will be interesting to all the people of this district, many of whom have always considered the Scorpion with great respect and favorable opinion, as one of the great possibilities of the camp. Superintendent J. E. Duval is now working with a crew in making a good survey of the property, with a view to work on a systematic plan of development for the work now commenced.

## LOW SPEED AIR PLANES PLANNED

(Correspondence of Associated Press) CARDIFF, Wales, Sept. 2.—Low-speed cargo airships for taking other aircraft were suggested by Wing Commander T. R. Cave-Brown-Cave in an address before the engineering section of the Conference of the British Association for the Advancement of Science held here.

When no speed greater than 35 miles an hour is required, and when reasonably favorable weather can be waited for, even small airships can be used for transport over otherwise impassable routes.

## ASSESSMENT NOTICE

**GOLD ZONE DIVIDE MINING COMPANY.**—Location of principal place of business, Tonopah, Nye County, Nevada. Location of works, Gold Mountain, Esmeralda County, Nevada.

Notice is hereby given that at a meeting of the Board of Directors, held on the 13th day of September, 1920, an assessment No. 2 of two (2) cents per share was levied upon the stock of the corporation, payable immediately in United States gold coin to the Secretary, at the office of the company, room 415 State Bank Building, Tonopah, Nevada.

Any stock upon which this assessment shall remain unpaid on the 15th day of October, 1920, will be delinquent and advertised for sale at public auction, and unless payment is made before will be sold on Saturday, the 23rd day of November, 1920, to pay the delinquent assessment, together with costs of advertising and expenses of sale.

By order of the Board of Directors,  
J. A. BISHOP, Secretary.  
Office: 415 State Bank Building, Tonopah, Nevada. 5-4-014

Whereas next registrar for the election, election by appearing before the county clerk at his office or by appearing before a deputy registrar in the manner provided by law.

County Clerk.

## German Submarines Poorer Than American

(By Associated Press) WASHINGTON, Sept. 28.—Detailed examination of surrendered German U-boats built during the war has produced nothing to forecast important changes in American submarine design. The navy department report after careful study of the German craft and a thorough test in the long cruise across the Atlantic American experts have found only a few unimportant details worthy of incorporating in new American designs.

In periscopes and apertures through the German boats were superior to pre-war American submarines. It was admitted, however, that the navy submarines, however, are superior to the best German U-boats in the world on the surface and in air work.

The torpedo mechanism, a weak point in the German U-boats, was found to be inferior to the American design. The torpedo mechanism, however, was found to be inferior to the American design. The torpedo mechanism, however, was found to be inferior to the American design.

## SACKS RICH ORE NEAR HAMILTON

A ton of high grade silver ore is being sacked daily from a property on the northeast side of White Pine mountain, near Hamilton, by John Colombo and Tony Rangino, two Italians of Lane City, under a lease and option from Hugh Coyle, for many years owner of the property, says the Ely Times. Shipment of ore will occur as soon as a sufficient amount is sacked. Mr. Coyle has arrived from there and will locate in Ruth in four days before he left they had taken out five tons of high grade.

Mr. Coyle states that he has made five shipments from the property in past years and he has great faith in its future. He is a Nevada pioneer of 1875 and a brother of Dennis Coyle, a stockman who has a ranch a few miles from Hamilton.
